What do you enjoy most about your job with e~Funds for Schools?

🗨️ *I enjoy the healthy and happy work environment along with the people that I work with. I also feel like I have a significant part to play as a developer for EFS. Being able to see the result of my work being used on a daily basis makes me feel like I'm making a real difference in the company.* 🗨️

Meet Jason! He has been with Magic-Wrighter for one and a half years working as one of EFS' Software Programmers in Information Technology!

Jason is the youngest in his family and has an older brother who works as a Data Scientist at Intuit in San Diego, and an older sister who works as a Speech Pathologist for elementary school kids.

Jason is a very well rounded individual with many interests to keep him busy when he's not working. He is a First-Degree Black Belt in Hapkido, a South Korean mixed martial art, which he has been studying for about 15 years. Jason loves music, Broadway and live theater shows. He enjoys a good movie from time to time and spends much of his time gaming.
