

Watch Sunday morning services with on-line TV

Our Sunday morning services, which are viewable on-line* with a mobile or PC, are now also viewable on television using on-line TV apps*.

If you have a **ROKU** plug-in for your TV, or **Apple TV**, both of which provide on-line “streaming channels” for popular content like Netflix, Hulu, and others, you can [add a streaming channel for BOXCAST](#).

Once you've added the BOXCAST channel—typically by clicking on ‘add channels’ from the “Settings”—just scroll down the alphabetized display of logos until you come to ours.

Click on it, and there we are in 720p high definition. You'll then see the same page as that seen on our website**. From the BOXCAST channel, you can view FCCWP video in real-time on Sunday, or replay the sermons from the archive, on-demand.

*ROKU plug-in from \$30; Apple TV from \$150 – at electronics retailers

** on-line viewing at fccwp.org/stream_boxcast
