

Seeking Facility with Bariatric Operatory Chair for IV Sedation Patient Treatment

Dear Colleagues,

I hope this message finds you well. I'm reaching out to ask if any of you have a bariatric operatory chair capable of safely supporting a patient up to 500 pounds.

I have a patient who would greatly benefit from treatment under IV sedation, and I'm exploring options to complete the procedure in a properly equipped setting. If your facility has the appropriate chair and you'd be open to renting the operatory space (with an anesthesiologist present), I'd love to discuss potential arrangements.

Please feel free to email me directly at info@yoursanmateodentist.com or call at (650) 344-7500 if this is something you can accommodate.

Thank you so much for your time and consideration - I truly appreciate any leads or suggestions.

Warm Regards,

Dr. Daniel M. Taw, DMD
San Mateo Dental Care
