

# Columbus State Community College

## Information Night for Families and Students

**Wednesday, November 14th**

**7:00 p.m.**

**GLHS Library**

Many of our students and families are looking to Columbus State to fit their post-secondary needs and the ideas and notions that were once thought of in relation to a Community College are evolving. Columbus State has a lot to offer our student population and we want to educate our families and students on how CSCC can meet their needs for the future.

This program will provide information on CSCC as it relates to:

- [Affordability](#)
- [Accessibility](#)
- [Employability](#)
- [Transferability](#)

We often refer to CSCC as the best kept secret for post-secondary planning.

Come and hear what it is all about!
