

2021 Classroom Management:

Successful Encounters

Child Care Aware of NH

Please join Scott Noyes for this dynamic three (3) hour training on Classroom Management. In the morning, we will begin with the *De-escalation with Children*. De-escalation is the reduction in the intensity of a conflict. Unlike escalation, which often occurs rapidly and unintentionally, de-escalation tends to be slow and only happens intentionally through much effort. A variety of approaches are possible: the gradual reciprocal reduction in tension approach (GRIT), cooling off periods, changing communication strategies and patterns and others. This presentation will introduce ways to bring a child back to a reasonable state. Learning to control yourself, your physical stance and how to have a helpful discussion, are topics this workshop includes. This information puts adults working with escalated behaviors in supportive positions.

We will continue our day with High Octane Kids! Got a child or two who usually are bouncing off the walls? Hanging from the ceiling? Constantly in motion? This workshop looks at causes, prevention and intervention with energetic kids. Avoiding labels like hyper and difficult helps to start this session on a positive note. Strategies that help the child, family and child care providers are discussed.
