

Looking Through a Family Engagement Lens...

Exploring Strengthening Families in Child Care Cohort (ESF Cohort)

Child Care Aware of NH, a Child Care Resource and Referral Program powered by Southern New Hampshire Services in collaboration with NH's Children's Trust and the State Early Learning Alliance (SELA), is offering the Exploring Strengthening Families (ESF) in Child Care Cohort. The ESF Cohort is intended for child care centers and family child care providers. Participating child care programs will walk through the five protective factors of supporting families, explore resources available to help families in their area, and network with other programs focusing on Strengthening Families. This Cohort will allow programs to assess their current family engagement practices, identify resources that are available to both the program and families, as well as create goals to sustain change in their practice to ensure the support of our New Hampshire families.
