

Communities of Practice: Strengthening Business Practices for Child Care Programs Information Sessions

Child Care Aware of NH, powered by Southern New Hampshire Services is proud to offer a new experience for center-based and family child care providers. CCAoNH's Community of Practice (CoP) is a **unique opportunity** for Early Childhood Professionals to **participate in a structured and supportive group that utilizes training, shared knowledge and experiences with experts and each other**, to promote professionalism and program quality. CCAoNH will be offering three (3) Communities of Practice throughout the State. These CoP's focus will all be on **Strengthening Business Practices in Child Care Programs**. Join us for one of our information sessions to learn more about this **FREE** opportunity and see how this CoP can benefit you and your program.

Are you a licensed provider looking for support around business practices:

- Budgets, Projections and Planning
- Financial Reports and Internal Controls
- Marketing Your Program
- Recruiting and Retaining Staff

Each of the three (3) Communities of Practice will be composed of eight (8) sessions covering multiple business practice topics. The training sessions will include active discussions, guest speakers and a variety of activities pertaining to business management.
