Are you interested in exploring the foundational competencies that serve as the structural framework for the field of Out-of-School Time programming? This course is for you! Covering Kindergarten through grade 5, this course will survey the following topics:

- School-age growth and development
- Learning environments
- Curriculum development
- Observation and assessment
- Relationships and interactions
- Engagement, voice, and choice
- Family, school, and community relationships
- Safety and wellness
- Program planning
- Professional development and leadership

We will explore these topics with the intent to promote respect for cultural diversity and address equity to create inclusive and respectful environments. To register, contact Diana Menard (dmenard@ccsnh.edu).

Looking for More?

NHTI offers multiple degree and certificate programs for those looking to expand their knowledge and start or level-up a career in the childcare field, including [Child and Family Studies](#), [Early Childhood Education](#), [Early Care and Education for Young Children with Disabilities](#), and [Education](#) — and some are available 100% online!
