

# 2017 Infant & Toddler Institute

Saturday, December 9, 2017  
8:30 AM – 3:00 PM

The Grappone Center  
70 Constitution Avenue  
Concord, NH 03301

\$50 - Registration fee includes  
training and lunch buffet.

The 2017 *Infant & Toddler Institute* will revolve around celebrating infants and toddlers. During the morning, we will look deeper into how important brain development, temperament and sensory processing is to our work with children, families, and each other in our program environments. During the afternoon, we will discuss how a baby's brain tries to make sense of the world around them through noise, sight and experiences. By exposing infants & toddlers to nature, it gives them the opportunity to develop their senses. Join us as we embark on a journey to discover how to support babies' sensory processing challenges through nature. Come prepared to enjoy a great day of professional development, network and have fun!

**Trainer Bio:** Cheryl Hovey, ECMPWT is currently working as the Program Director for Early Childhood at Fisher College and is an Early Childhood Consultant specializing in infant and toddlers. She completed her undergraduate degree at Wheelock College in Human Development with a concentration in Child and Family Studies and her Master's Degree in Birth to Three: Development and Intervention as an Infant and Toddler Specialist.
