# Child Care Training: Part 2

## Trauma Informed Child Care Techniques

Barbara van Hoff, LMFT and RPTS, will provide this 3 hour training in understanding developmental trauma and its impact on early childhood care. Emphasis will be placed on understanding causes of aggression, avoidance and non-compliant behaviors, along with how to provide a safe, trauma-informed classroom. Attendees will learn skills in transforming early childhood settings to allow traumatized children to feel safe and secure, and will also practice ways to deescalate children who have experienced trauma. This is an experiential workshop, come prepared to play! *This is the same training that was offered in the spring 2019.*
