Training Description:

During this year's Training and Technical Assistance Institute, Early Childhood and Afterschool Trainers, Technical Assistance Specialists, Consultants and others serving in a mentorship role, will gather to obtain an in-depth look at the New Hampshire Child Care Center, Family Child Care and School Age Emergency Operations Plan Template (NH EOP). Through various hands-on activities and interactive group discussions participants will walk away with a stronger working knowledge of the NH EOP. Join us to learn about the history behind the Template and explore the different components and resources that can be found within its pages. You'll walk away from this Institute with a stronger familiarity with the format of the template and gain concrete ways to support teachers and programs as they start to implement the NH EOP into their work. Participants will be provided with a printed EOP Template booklet and get an overview of the NH EOP Template and learn how to incorporate the NH EOP Template into their programming. This training is intended for those who provide training and technical assistance, coaching, mentoring and consultation. Those wishing to work on the electronic version of the guide should bring their charged laptop or tablet. ***Please note that it is strongly recommended for participants to have already completed emergency preparedness training before attending this Institute.**
