## Status of Childhood in America

Course # & Section: ECE204RZZ

**Course Description:** What is the current status of childhood in America today and how has childhood changed over time? Using knowledge from multiple disciplines, this course examines significant factors influencing young children and their families.

**Topics include:**

commercialization & consumerism

media & technology

gender & equity

changes in children's play

If you would like to examine what research reveals about optimal child outcomes and learn specific strategies early childhood professionals can use to advocate for and to support positive child development and healthy family functioning, then this is the course for you!
