

Early Childhood Leadership Collaborative: Promoting the Pyramid Model in Early Childhood Settings

The Pyramid Model is a multi-tiered framework of practices designed to support the social and emotional development of infants, toddlers and preschool-aged children.

Studies of Pyramid Model implementation in programs that include children with and without disabilities, show an increase in children's social skills and a decrease in children's challenging behaviors.

In this collaborative, participants will have the opportunity to learn more about the Pyramid Model on an on-going basis and explore the evidence-based practices that comprise the promotion, prevention and intervention approaches that make up the Pyramid Model framework.

The Early Childhood Leadership Collaborative: Promoting the Pyramid Model in Early Childhood Settings will be held twice per week on Monday and Thursday on the third week of the month. Each week, we will be offering two sessions on the same topic, please register for the time that best suits your needs?
