

Child Care Aware of New Hampshire (CCAoNH) will be offering a Community of Practice (CoP) through the 2022-2023 training year. A CoP is a unique opportunity for participants to build knowledge, share ideas, collaborate together, and develop a common understanding around a particular topic.

This year, we are offering the **Community of Practice: Beyond the Intro and Overview for Environment Rating Scales**. This opportunity will allow participants to come together to grow their understanding of the tools, ask questions about the Environment Rating Scales, and connect with fellow providers. Each session will focus on specific questions that the group will derive together. Professional development hours will be awarded.
