

## Important message for program directors

Are you an early childhood administrator  
working in a licensed childcare program in the  
state of NH?

Your insight is needed!

You are invited to take part in a novel research study  
exploring the leadership skills exhibited by early  
childhood directors.

Please click on the link below to find out more about  
this important survey of leaders within NH early  
learning programs

**Why:** As an ECE leader and doctoral candidate at  
Plymouth State University, I am interested in learning  
more about the skills early childhood (EC) administrators  
exhibit in their leadership. This survey will allow EC  
administrators to report their perceived skills in leadership  
and communication. This data will begin to identify the  
skills EC administrators possess and identify potential  
training needs of future and current leaders, to enhance  
the support of EC teachers.

I thank you for your valuable time.

Lisa Ranfos, Candidate for Ed.D Doctoral  
Candidate
