

PEER LEARNING COMMUNITY:

Mind in the Making Seven Essential Life Skills

Child Care Aware of NH is offering a Peer Learning Community focused on the Mind in the Making training series. **The Mind in the Making Seven Essential Life Skills Modules** have their origins in a book by Ellen Galinsky, *Mind in the Making the Seven Essential Life Skills Every Child Needs*. Following an Introductory Module, each Module is focused on one of the Seven Essential Life Skills: focus and self control; perspective taking; communicating; making connections; critical thinking; taking on challenges; and self-directed, engaged learning. These evidence-based life skills all involve what researchers call executive functions of the brain.

Please note, the first session is required to be able to participate in any of the other sessions in the series. Although it is not required that you go to all sessions, it is **highly** recommended. We strongly encourage participation in all sessions to get the most out of this opportunity.
