

DISCUSSION ON SPECIAL SCREEN TIME DILEMMAS IN EARLY CHILDHOOD DURING THE PANDEMIC

Early Childhood Leadership Collaborative:
CCAOH News and Updates

**MARCH 10, 2021
9:30-11:00 AM
ONLINE ZOOM CALL**

Join Child Care Aware of NH powered by Southern New Hampshire Services to hear a special guest speaker during one of our Early Childhood Focused Collaborative Meetings: CCAoNH News and Updates. **Diane Levin will be virtually joining us** to discuss the increased use of screen time and its impact on children during this pandemic. Whether the child is using screen time for academics, enjoyment, as a babysitter for parents or because "just play" has become boring, it can take a toll on their childhood. We will have time to discuss this new dilemma, discuss strategies for responding, and answer questions.

Diane Levin has her PhD and is a professor of Human Development at Boston University. **Professor Diane Levin's work focuses on how children's development, learning, behavior and play are affected by things such as violence and war, poverty, media and commercialization, and educational mandates and testing.** Diane recommends what we can do to protect children and promote optimal development and learning in relation to each of the societal factors she studies. **Dr. Levin has authored (or co-authored) dozens of articles and eight books, including: The War Play Dilemma, Beyond Remote-Controlled Childhood, So Sexy So Soon and Teaching Young Children in Violent Times.**

Child Care Aware of New Hampshire is a Child Care Resource and Referral Program powered by Southern New Hampshire Services. The preparation of this flyer was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, Division of Economic and Housing Stability, Bureau of Child Development and Head Start Collaboration with funds provided in part by the State of New Hampshire and the US Department of Health and Human Services.
