AGENT OF CHANGE

- Inspired by Austin & San Francisco
- Disclosure and awareness. Not a mandate.
- New residential/hotel developments near venues will be:
 - Accountable for sound mitigation measures
 - May not retroactively restrict lawful venues.
 - Obligated to provide disclosure to occupants

Education First *Strategy*

PROACTIVE EDUCATION

The City invests in success, not just enforcement.

- Quarterly workshops
 - Application guidance & explanation of expectations
- Guidebook for late-night businesses
 - City resources and best practices for safety and success
 - Templates for safety, noise, and crowd plans
- Encouraging and incentivizing additional training programs

ENFORCEMENT STRUCTURE

Strategy:

- Education first, punitive action when necessary
- Complaint-driven monitoring
- Escalation only when voluntary compliance fails

Enforcement Ladder:

Education

→ Notice of Violation

→ Enforcement with Citation

→ Suspension/Revocation of Entertainment License

→ Option to Appeal (Permit License Appeal Board)

Incentives & Partnerships

Rewarding Responsible Operators

- Fee waivers for first license to existing dance hall license holders
- Potential reduced requirements for strong compliance history
- Benefits for completing additional training
- Encouraging use of safety technology

FEBRUARY 18, 2026 PUBLIC MEETING FEEDBACK

Overall sentiment was of interest and support.

Questions and comments included:

- Commercial Promoter Permit seems to be redundant with this ordinance
- The enforcement and definition of restaurant/food service is a critical issue also needing revision.
- How quickly can the program roll out? **(TBD)**
- How long is the duration of the license? **(2 years)**
- How will the program protect residents moving into areas with growing nightlife? **(Holding operations accountable to standards that respect the quality of life)**
- How quickly can an application be turned over for approval? **(This depends on application accuracy at submission. 3 months is estimated)**
- Does this effect liability coverage? **(It should not.)**
- Does the license attach to the business or the property? **(The Business)**
- Does this task force contain representation from the hospitality industry? **(Yes)**

For Future Consideration

- Challenges in code enforcement related to restaurant uses
 - Inconsistent enforcement
 - Compliance disputes
 - Financial risk for operators
- Addressing “Agent of Change” principle with Building Code
 - Will require alignment for successful implementation
- Updates to 3-1-1 App for a more user-friendly experience
 - Clearly labeled “Noise Complaint (Commercial)” option to ensure complaints are routed appropriately
- Identifying Entertainment Districts
 - Defining Entertainment Districts to continue building out a practical and sustainable solution to sound
- Reevaluate Recommendations
 - All recommendations approved should be reevaluated within a year to see assess impact and make revisions where necessary.
