

- ▶ Galvanized Steel Posts from ODEM - Products that Make Sense.
- ▶ Steel will not Melt, Crack, or Droop and is a great deterrent for the operator of a brush hog or other heavy equipment.
- ▶ The decal provides 360 degree visibility and will be easily readable for years; same as your reflective lettering. It will also be highly visible at night.
- ▶ The simple addition of an extension and ground bus allows any post to be converted to a Test-Station. If Desired a PVC sweep can be attached at the bottom for easy routing of test wires into a Handhole.
