**Did you know that 1 in 5  
Americans will develop skin  
cancer in their lifetime?**

The good news is that 99 percent  
of all cases are curable if treated  
early.

Ridgeview providers are offering  
free screening by appointment;  
call 952.442.8083.

*This is not a full-body screening, but  
an opportunity to have a particular  
spot or area briefly examined.*

*Made possible by the  
American Academy of Dermatology*

## Cancer Care at Ridgeview

Each year, Ridgeview's exceptional cancer care team diagnoses and treats nearly 600 patients, following the same standards of care found at other nationally recognized programs. The skill of our physicians, coupled with state-of-the art technology, provides outcomes that meet—and in many cases exceed—national benchmarks. For more than a decade, Ridgeview's Cancer Program has received approval from the American College of Surgeons (ACoS) Commission on Cancer. Nationwide, only one in four cancer programs achieves this recognition.
