

## Expand your knowledge of Fleet Investigations

### Fleet Accident Investigation May 4–5, 2026 – Mississauga, Ontario

Strengthen your ability to respond to, analyze, and prevent vehicle collisions through NATMI's *Motor Fleet Accident Investigation* course, hosted by the Fleet Safety Council.

#### About the Course

This intensive two-day program provides practical tools to:

- Plan and manage a fleet's collision response process
- Gather and document on-scene and off-scene evidence
- Develop diagrams and analyze contributing factors
- Determine root causes and create effective prevention strategies

Whether you're new to investigations or refining established procedures, this course helps you protect your organization, your drivers, and the public through sound, defensible investigations.

#### Who Should Attend

Safety and risk professionals, operations managers, and anyone responsible for collision prevention and loss control.

#### Event Details

 Mississauga, Ontario

 May 4–5, 2026
