Join the Toronto Labour Management Health & Safety Committee at its full-day workshop on Behavioural Science and Leadership.

The interactive workshop on March 5, 2026, at 8 a.m. explores how to leverage behavioural science and safety excellence to enhance organizational culture, strengthen leadership, and improve overall performance.

Designed for executives, project managers, superintendents, frontline supervisors, health and safety professionals, JHSC members, and worker representatives, the event features a variety of practical activities—with lessons that can have an immediate impact at your workplace.

Hosted at IHSA's Toronto training centre—21 Voyager Court South, the event is an important learning opportunity as well as a chance to connect with other professionals from a variety of industries.
