Johnson County Service Opportunity

Cards For Hospitalized Kids (CFHK)

The Johnson County 4-H Council is leading a community service opportunity where all 4-Hers in the county are invited to create cards to be sent across the nation to brighten the day of kids in *Children's Hospitals* and *Ronald McDonald Houses*. The club that brings the most high-quality cards on or before the July 6th County Council Meeting will receive a $100 prize.

When Creating these cards, please:

Do:

- Write encouraging and uplifting messages that do not focus on an illness
- Feel free to write a joke or puns inside your card
- Feel free to include specific characters or themed cards
- Focus on quality over quantity
- Sign ONLY your first name. You can also optionally include information like “From Kansas”, or “From Johnson County 4-H”. For example: “Michael, From Johnson County 4-H”

Do NOT:

- Include messages like “get well soon” or “Hope you feel better”
- Address the card to a specific person
- Rush these cards or try to make many of them fast
- Include personal information about yourself like a social media handle, last name or contact information of any kind
- Include any religious or political comments of any kind

Participants are invited to **bring completed cards *early and often* to the extension office** so we can track each club’s progress. Cards will also be accepted at the May and July meetings of the Johnson County 4-H Council or you can arrange a separate pickup time.

More information can be found online at the official website:
