

# What's New in Grade 6?

## מה חדש בכתה זו?

Friday, March 22, 2019 / 15 Adar II, 5779

Purim - what a day! Our celebrations started with a special School Tefillah in which we added *Al HaNisim*. During the Interactive Megillah Reading 6th grades students performed Shadow Theater acts and helped to bring the story alive. It was amazing and the students received many compliments. In our festive lunch our class representatives told jokes and succeeded to make Mr. Mark laugh.  This amazing day concluded with the famous show: Shushan's Got Talent. The performers were the teachers and what was the role of the 6th grade students? They served as the host and the judges. Needless to say that the act in which the 6th grade teachers took part, was the judges' favorite.

- Hebrew: we concluded studying Megillat Esther and watched an Israeli musical telling the story. All in Hebrew.
- *Humash*: discussed why did Yosef give his brother Binyamin 5 times more gifts than the other brothers.
- *Parashat Shavu'a*: studied *Parashat Tzav* and focused on the meaning of some of the *korbanot*, sacrifices, in how it is related to our life today
- Science: continued coursework on atoms and elements with emphasis on Hydrogen and Helium
- Mathematics: introduced angles and triangles then conducted a paper-airplane lab in the classroom
- ELA: discussed Purim; wrote about character traits of friendship (Inspired by **WONDER**)
- *Toda'ah Yehudit*: wondered why did Haman in the story of Purim hate the Jews so much; elaborated this questions and discussed the sources of anti-semitism back then and today

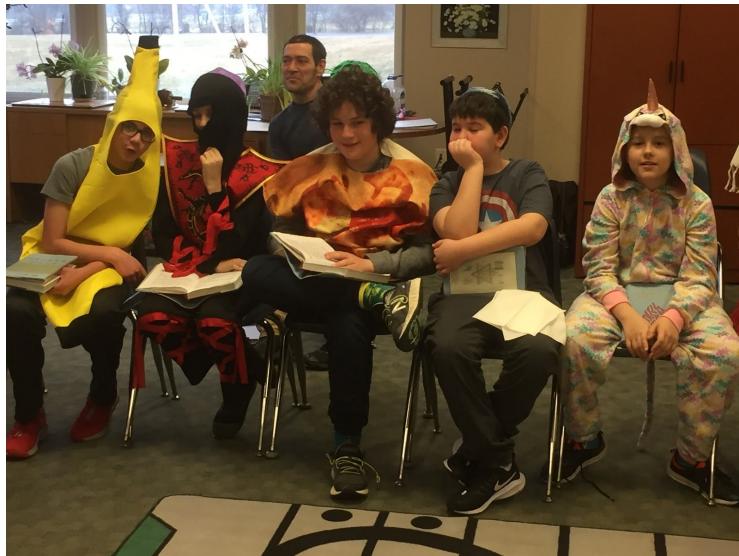

### Ask your 6<sup>th</sup> grader:

- What two identical shapes form a parallelogram?
- Which classroom objects have we used to calculate area?
- What is the formula for finding the area of a triangle?
- According to the story we read, why did Haman hate Mordekhai and the Jewish People?
- Why did Yosef reveal his true identity upon seeing his brother Binyamin?
