

The story of your child's creation.

What's New in Grade 2?

Friday, October 5, 2018

This week, we:

- Dissected math word problems and learned how to use a “tape diagram” to help solve math problems.
- Began a new science unit on the solar system and created a “KWL” chart (What I KNOW, What I WANT to know, What I LEARNED) about outer space.
- Continued working on narrative writing and used “C.O.P.S.” to edit our work.
- Started parashat hashavua and learned about the creation of the world.
- Had our first official Kabbalat Shabbat in the classroom with Rabbi Sharon.

Of Special Note:

- Friday, October 12: All School Kabbalat Shabbat 1:40 p.m.-2:20 p.m.
- Wednesday, October 17: Picture Day Students Wear CJDS Polo
- Friday, October 19: Professional Development Day NO STUDENTS

Questions for your kids:

- What does “RDW” stand for in math?
- What is one question you have about the solar system?
- What does each letter in “C.O.P.S.” stand for?
- What did G-d create on the 7th day?

This week the second graders went on a nature walk with their sixth grade buddies. After the walk, each group of buddies came back inside and completed an art project together about what they observed.
