

What's New in Grade 1?

מה חדש בַּכְּתָה א?

Friday, September 28, 2018/19 Tishrei 5779

We had a wonderful week of school! Some things we did this week were:

- Science-worked in groups to create models of bear habitat using Lego
- English-used our classroom iPads to aid reading fluency
- Math-learned that numbers in the teens are made of “a ten and some ones”
- Hebrew-learned the letter *dalet*
- Judaics-continued learning about *Sukkot* and learned about *Simḥat Torah*

Ask your child:

- Why are we happy on *Simḥat Torah*? (we’re starting the *Torah* again from the beginning)
- What was your part in the celebration for *Simḥat Torah*?
- What number is “one ten and three ones”?
- What part of the bear habitat did you build? (River, Cave/Den, Woods, Food sources)

Reminders:

- Please send in items for the *Tzedakah Club* Mid-Ohio Food Bank drive from now until Nov. 20 (they are collecting diapers, shampoo, conditioner, bar soap, toothpaste, body wash, toothbrushes, deodorant, and specific canned goods on flyer)
- **No School- Shemini Atzeret & Simḥat Torah:** Mon. & Tues. 10/1 & 10/2
