

The story of your child's creation.

What's new in the classroom?

מָה חָדָשׁ בְּכַתָּה

May 16, 2019 / 11 Iyar, 5779

Dear Families,

We have shared an *AMAZING* week! Here are some of the things we did:

- Led Yahad on Monday morning
- Initiated an impromptu, all inclusive dance at Yahad
- Learned about Ohio's Economy, and how industry in our state has affected where people choose to live
- Are inching closer to the end of our Fix It! Grammar unit with a fabulous story that just gets better every week
- Learned about "the trick" that Yaakov and Rivkah did to Yitzhak
- Explored the life of Rabi Akivah - Tal Am worksheets and iTalAm
- Lag Ba Omer worksheets and discussion
- Used tiles to demonstrate our understanding of fraction conversions for fractions greater than one; created number lines to illustrate fraction comparisons
- Moved all our science posters into the cafeteria for all to see and learn from
- Celebrated filling the marble jar for the third time this year with a group picnic and recess just for our class
- Prepared for our Art's Night performances

Ask your 3rd grader:

- What was "the trick" that we learned of in Humash
- What are some reasons that it's **not ok** for Yaakov and Rivkah to have tricked Yitzhak
- To tell you about Rabi Akiva
- To share one idea they learned from the story "The Far-Out Field trip"

Ask your 4th grader:

- Why could it be considered **ok** for Ya'akov and Rivkah to have tricked Yitzhak
- To explain what makes Rabi Akiva a special person
- How to convert $\frac{23}{6}$ into a mixed number
- To share one idea they learned from the story "Taming the Colorado River"
