

# What's New in Grade 2?

## מה חדש בכיתה ב'?

Thursday, May 23, 2019

### This week, we:

- Learned what a "fraction" is in Math, and practiced dividing shapes into halves, thirds, and fourths.
- Wrote about our favorite memories of 2nd grade, and what we are most looking forward to as third graders.
- Read more from the book *Shiloh* and discussed what point of view the story is being told from, what new vocabulary we could take away from the story, and adjectives that would describe various characters.
- Learned about different foods and the blessings that are connected to them.
- Studied Parshat B'har, focusing on the commandment to let the land rest every 7 years in the land of Israel.
- Started our study of Shavuot, and talked about the 4 different names for the holiday, and imagined another new name that we might give Shavuot.
