

DISASTER & POVERTY: A PROBLEM-SOLVING EXERCISE

How do individuals and families who live in poverty solve problems?

This interactive workshop helps organizations and individuals understand how to effectively and empathically serve low-income families. This unique experience offers insight in a fun, non-threatening setting.

We highly encourage individuals and organizations that provide services and resources to at-risk populations to attend.

During this workshop attendees will:

- Assume the role of a particular family
- Take on the family structure, circumstances, and financial situation
- Live out the family scenarios, including a disaster
- Debrief and discuss their experiences

Friday, September 14 | 9 –11:30 a.m.

Rex Eno Conference Center

Human Services Campus

317 7th Avenue SE, Cedar Rapids

No cost. Pre-registration required.

Register at uweci.org/workshop.
