

Heavenly Father,

Thank you for your divine providence and protection. We have witnessed evil all around us, but more importantly many around the WORLD have finally stood up against the hatred, prejudice, oppression, injustice and the life altering effects of institutionalized racism. We thank you for the courage of good and decent people striving to care for your creation. In the midst of a Global Pandemic I am with you, as you lead and guide me. You give strength to the weary (health care workers and support staff, first responders especially the GOOD law enforcement professionals suffering backlash with the bad, families and caregivers of patients, and those seeking opportunities to help the suffering), solace to the grieving, peace to the dying, and hope to the troubled and anxious.

I am grateful to serve you by serving my fellow man. I am grateful for time to reflect and discern your will for me. I am thankful for every challenge and roadblock in my life, they helped to strengthen me and prepare me for the next step of the journey. I am thankful that whether I'm traveling through a valley that feels like the very depths of hell OR soaring as on wings of eagles....It is well with my soul! Lord bless those who have never turned to you and those who have strayed away. Forgive those following a path of darkness and guide them to the light of love. Let the body of Christ say....

Amen!! 

Yours in Christ,
Cynthia Burroughs
