## News Press & Gazette Company Acquires Nebraska Data Centers

**Omaha, NE November 5, 2018** – News Press & Gazette Company announced today that it has acquired Nebraska Data Centers at 1623 Farnam in Omaha, NE. This facility is the nexus for local, national and international carriers, enterprises, network operators, and cloud providers in the region. The investment represents an opportunity for renewal and expansion at 1623 Farnam, ultimately converting the facility into a world-class carrier neutral hotel in downtown Omaha.

The region will benefit by offering more reliable interconnection and secure high performance edge data center solutions. Nebraska Data Centers is the most network-rich, carrier neutral interconnection facility in the region. NDC has more than 40 network, content, cloud, and IT services providers serving as the primary gateway to user networks.

“NPG sees tremendous opportunity with Nebraska Data Centers and its current management team. Our partnership leverages the NDC team’s vision for the facility with NPG’s extensive resources and experience in technology infrastructure. Our master plan will include capital improvements of more than \$30 million over the next 5 years.” said Brian Bradley, President of NPG.

“We are excited to have a Midwest family company in NPG make a significant resource and financial commitment that will allow us to continue building value in our carrier hotel for our customers. We look forward to the opportunity to continue to manage a facility with expansive fiber connectivity, within a highly strategic location as a world class carrier neutral interconnection facility”. Said Todd Cushing, President of Nebraska Data Centers.

The new company will be called 1623 Farnam, LLC.

MVP Capital was the exclusive financial advisor for NDC.
