Stay on Top of Trash and Recycling in the Village: Residents are encouraged to sign up for the Weekly Village Newsletter, which provides continuing coverage of the Trash and Recycling Collection Program details and meeting times as they become available. They may sign up by emailing j.heyden@wfbvillage.org.

Note: Information correct as of 12/12/17 – Program details are subject to change.

Preliminary Information for Trash and Recycling Program

- The 95-Gallon Trash Cart will be the standard size and all single, 2- and 3-family homes and condos will receive this cart free in May 2018.
- A Letter and Response card will be sent to all residents to explain the program. The response card will allow you to select the smaller cart, purchase an additional standard cart, and/or apply for an exemption application. Submit response card by Jan. 31, 2018.
- No bags or extra trash will be allowed to be placed next to the carts for pickup without a special pickup fee. This applies to Recycling as well. (Being reviewed)
- The 65-Gallon Trash Cart on display at the Whitefish Bay Public Library will be a downsize option for any resident slated to receive a standard cart who wishes to have a smaller cart. All residents in single family, 2- and 3-family homes and condos will be getting a letter which will give them the option to initially order this smaller cart.
- New Trash Carts will be gray with gray lid.
- Applications for Exemptions to cart-to-curb or alley edge placement of carts for medical reasons will be provided.
- Residents will be allowed to purchase extra, 95-gallon trash carts at a cost (yet undetermined).
- Anyone originally opting for the smaller 65-gallon trash cart may decide a standard 95-gallon cart is necessary and may purchase a standard 95-gallon cart at a later date at their expense.
- Carts do not need to be brought out every week if not full.
- Existing 95-gallon recycling carts will stay the same size and will not be replaced.
- Rules for recycling will not change – recycling is to continue to be brought to curb or alley edge for pickup.
- Recycling collection will increase to an every other week pickup. The pickup day of the week is not scheduled to change.

This information accurate as of 12/12/17 and is subject to change.
