Re: Silver Spring Drive Reconstruction Project:

Silver Spring Drive from east side of N. Port Washington Rd intersection to west side of Lydell Ave intersection.

Dear Neighbors:

The City of Glendale is preparing to reconstruct Silver Spring Drive from the east side of the Port Washington Rd intersection to the west side of the Lydell Ave intersection. The construction does not include the intersections with Port Washington Rd, Mohawk Ave, or Lydell Ave. The construction project will include removal and replacement of the concrete pavement in phases to allow two-way traffic on Silver Spring Dr. at all times during construction. Furthermore, there are two locations where the access to the business or parking lot is limited to Silver Spring Dr. In these instances, access for businesses will be maintained at all times during construction. While two-way traffic will be maintained throughout the duration of the project, certain turning movements may be restricted. Please pay attention to the traffic control barricades and signage as they will change throughout the project.

Listed below are key items regarding the project:

- (1) Work is scheduled to begin Monday July 13, 2020 and is tentatively scheduled to be completed in early October.
- (2) The City of Glendale will NOT charge any special assessments for this project.
- (3) During the project, certain turning movements through the project will be restricted as workers and machinery maneuver on the site. Emergency access to all properties will be maintained at all times
- (4) City ordinances permit the contractor to work weekdays from 7:00 AM to 7:00 PM. Our Contractor, Zenith Tech, has stated the typical work day will be between 7:00 AM and 6:00 PM.
- (5) **The Project Manager is Evan Nickodem, P.E. from Clark Dietz, Inc. Feel free to reach out to him to ask any questions. Evan's phone number is (414) 429-3826 or email him at Evan.Nickodem@clarkdietz.com. Evan will be your quickest and easiest point of contact for anything related to the construction project.**

Sincerely,

CITY OF GLENDALE

Charlie Imig
