**Join Liz Johnson, Individual Health Specialist from R&R Insurance,**

for an informative hour of helpful information. As you become eligible for Medicare, you have options for your health insurance coverage. Liz Johnson can help you determine which plan would be best for you. The months leading up to your Medicare eligibility can be overwhelming as many insurance companies will begin sending you mailings about the plans that they offer.

Some of the topics that will be covered include:

- Understanding the “Alphabet Soup” of Medicare
- Reviewing your option of enrolling into Medicare or remaining on your employer’s plan
- Explaining the difference between Medicare and Medicare Advantage (Part C) plans
- Evaluating your Medicare Part D (prescription drug) coverage options
- Understanding your requirement to enroll in Medicare Part B if you work for a small employer

**Special thanks to Don Levings, Liz Johnson and R&R Insurance**
