THE COUNCIL OF STATE GOVERNMENTS

During a recent visit to the state legislatures of Nuevo Leon and Coahuila in Mexico, CSG West staff enjoyed an opportunity to share upcoming program plans with legislators and learn more about their legislative focus related to border policies. A key topic of conversation was the planning of the upcoming Border Legislative Academy (BLA) and Border Legislative Conference (BLC) which are coordinated by CSG West. Both programs are hosted annually inviting legislators and stakeholders from the U.S. and Mexico border states to convene for collaborative and educational programming.

In Nuevo Leon, the president of the state Congress, [Diputado Marco González](#), highlighted the importance of the meeting in the development of a regional and relevant agenda for the upcoming events. Similarly, meetings in Coahuila offered an opportunity to learn about their legislative priorities, as well as visit with previous participants from both the BLA and BLC.

The staff of CSG West is extremely grateful for the hospitality and welcome from both Nuevo Leon and Coahuila and look forward to their participation this September in Mexico City. **Border Legislative Academy** – September 18-19; **Border Legislative Conference** – September 20-21st.
