

Current Funding Opportunities — January 2017

1) Cancer Immune Monitoring and Analysis Centers (U24)
[\(RFA-CA-17-005\)](#)

SPONSOR: National Cancer Institute

Synopsis: This funding opportunity announcement (FOA) solicits applications for multidisciplinary Cancer Immune Monitoring and Analysis Centers (CIMACs) that will serve as the main units of the Network for correlative studies in clinical trials involving immunotherapy. Specifically, each CIMAC will encompass a multidisciplinary group with basic, translational, clinical, and computational research expertise. CIMACs are expected to provide a wide range of state-of-the-art analyses for genomic, phenotypic and functional characterization of responses of patients in the NCI-sponsored early phase clinical trials using analytically-validated and standardized platforms.

Application Receipt Date(s): March 3, 2017, by 5:00 PM local time of applicant organization.

2) Tobacco Use and HIV in Low and Middle Income Countries (R01)
[\(PAR-17-087\)](#)

SPONSORS: National Cancer Institute, National Institute on Drug Abuse

Synopsis: The purpose of this funding opportunity announcement (FOA) is to encourage research focused on tobacco use and human immunodeficiency virus (HIV) infection in low and middle income countries (LMICs). In particular, applications are encouraged that focus on the development and evaluation of tobacco cessation interventions tailored to HIV positive populations, including those with co-morbidities such as tuberculosis (TB), in low-resource settings in LMICs. This FOA provides funding for research planning, intervention delivery, and follow-up activities.

Application Receipt/Submission Date(s): April 4, 2017; November 1, 2017; April 4, 2018; November 1, 2018; April 4, 2019; November 1, 2019, by 5:00 PM local time of applicant organization.

3) Exploratory/Developmental Grants Program for Basic Cancer Research in Cancer Health Disparities (R21)
[\(PAR-15-092\)](#)

SPONSOR: National Cancer Institute

Synopsis: This Funding Opportunity Announcement (FOA) encourages grant applications from investigators interested in conducting basic research studies into the biological/genetic causes and mechanisms of cancer health disparities.

Application Receipt Date(s): June 19, 2017; November 17, 2017, by 5:00 PM local time of applicant organization.

4) Consortium for Pancreatic Ductal Adenocarcinoma (PDAC) Translational Studies on Tumor Microenvironment (U01)
[\(RFA-CA-17-015\)](#)

SPONSOR: National Cancer Institute

Synopsis: This funding opportunity announcement (FOA) invites applications to establish a Resource Center (RC) for the Consortium for Pancreatic Ductal Adenocarcinoma (PDAC) Translational Studies on the Tumor Microenvironment (Consortium) that has the ultimate goal to design new immunotherapy and combination interventions in PDAC.

Application Receipt Date(s): March 7, 2017, by 5:00 PM local time of applicant organization.
