

**Gilchrist Center students express their appreciation:**

“I wanna thank my teachers for helping me so much in the process of learning English.”

“My teachers were excellent, they are very sweet, patient, and professional. I really liked taking the class on Zoom because it was safe and at a time when I can take a class. It's wonderful that there are organizations that offer this type of assistance to those of us who live in Montgomery County. Thank you for everything.”

“I like taking the class online because I wouldn't have anyone to leave my children with if class were in person, my son has special needs.”
