

U.S. State Department Meeting, continued

Ms. Nan Fife, the US State Department's Director of Caribbean Affairs and other diplomats led the meeting, sharing information about programs, events, and successes achieved under the US-Caribbean 2020 Strategy, as well as plans to revise the "Strategy" to direct future engagement. Although a transition in administration is on the horizon, the priority to engage with diaspora organizations will not change. The Western Hemisphere Affairs Bureau has been charged to continue efforts to bring important issues and policy conversations to Caribbean communities in the US.
