EveryMind: Mental Health Resources for the Faith Community

The faith community has been increasingly concerned about the mental health of their congregants and community members during the pandemic. This townhall will allow community and faith leaders to learn more about mental health resources provided by local non-profit EveryMind.

EveryMind works with vulnerable and underserved populations to improve mental wellness through counseling and case management, peer navigation to veterans, support to at-risk students and their families, crisis prevention and intervention and community education. Our speaker will be Jennifer Grinnell, the Director of Education for EveryMind.
