

## *Friends & Client's Testimonials*

To be clear, I, Merrily Milmo, am not making any claims here. These are anecdotal testimonials generously relayed to me by my customers and friends. These testimonials are from people who have been drinking Divinia water consistently from one to nine months. There were a few people I had traveled to interview that were given a “death sentence” by their doctors; (less than a month to live). According to them, they drank as much as 6-8 bottles (1 gallon) of Divinia water each day, but didn’t change their “not-so-great” eating habits or anything else. Several years later, they are alive and prospering! I highly recommend that you begin by listening to this example: *Remarkable Recovery with Divinia Water*. [Watch the full video here.](#)

*In 2011, Ralph Stanton was exposed on-site to an extreme Plutonium leak at Idaho National Labs. Ralph had 15,000 times more radiation exposure and was given a slow, painful death sentence. NOTE: If you're short of time, fast forward to the 28:00 minute mark where Ralph speaks about drinking Divinia & his recovery process.*

*“My bone marrow and liver were completely full of iron, and I was in the beginning stages of kidney and liver failure as well. It has never been documented before in medical history that radiation could be brought out of kidneys, liver, and bone marrow in such a short time. I know it was due to the Divinia water. I didn’t eat well and in fact was so depressed from my extreme radiation poisoning that I began to drink. I started on Divinia seriously in January 2017, and ... on May 27<sup>th</sup>, 2017, my liver and kidneys were fully functional, and my iron levels were just slightly above normal! I would never have believed water could help like this. I thank Steve and Divinia for saving my life!”*

*~ Ralph Stanton, Idaho, 2017*

*Steve Sedlmayr, Divinia CEO, starts talking again in the video at 46:40 minutes. “Studies are being done on plants grown with Divinia water - that “may” be cancer-resistant. Various studies have been going on to see if Divinia has a positive effect on stem cells and DNA telomeres (which are related to aging). I want to be clear that I am not making any medical claims here... I know of 4 doctors who now drink this water and advocate it for their patients.”*

*All water has a perfect memory and  
is forever trying to get back to where it was.*

*~ Toni Morrison, 1987*

*Hi Merrily - I am calling you because I thought you would like to hear some very interesting results from drinking Divinia water. A friend of mine was riddled with Black Mold, which is very serious and has greatly impacted her health. As you know, it is a common problem with those of us living in the woods here in Mill Valley. For ten years, she had been trying everything, both traditionally and holistically, with little improvement. I remember you saying that in Dr. Gerald Pollack's book, it was shown that Divinia's 4<sup>th</sup> Phase Exclusion Zone water allows for toxins to be removed very efficiently from the body. So - I ended up giving her some of my stored Divinia to try. I think she drank two bottles a day for only four weeks. At her recent doctor's appointment, tests showed that there was no trace of mold in her body or blood!*

*And, as for me, as you know, I have had thyroid and health issues for a long time, and now, I am more committed than ever to embrace and focus on my body. I am committed to drinking two bottles a day and I have also found a wonderful intuitive naturopath who discovered something that no other doctor had found. I have a huge accumulation of Roundup poison in my Pituitary Gland, which certainly explains a lot of my symptoms. However, one thing surprised this brilliant naturopath. She was perplexed to find out how clear and healthy my blood was. I know it was Divinia that helped with that. I wanted to thank you for all the research you do and for providing it to me in a way that is easier to afford. ~ Tam M. Mill Valley, CA 11/2019*

*Hi Merrily, I have been wanting to remember to tell you how I recently benefitted from drinking Divinia. Every year I go to Lake Tahoe, and each time, I am greatly affected by the high altitude. I get severe headaches, and when I walk, I start wheezing. This year, I brought an entire case of Divinia with me in the car, and I drank it consistently, as did other girlfriends that were with me who also loved the taste. My daughter would never drink much water before, and she loves Divinia so much that she wants us to send some to her at college. It tastes great and goes down very smoothly.*

*For the very first time over many years of vacationing in Lake Tahoe -- I did not get one headache or wheezing symptoms. I also did not get out-of-breath when I walked and hiked. I thought that might be because of the high content of oxygen in the Divinia water. My husband and I are now a regular part of your Community Pickup, and at least one of my girlfriends will be calling you soon to buy some. It tastes great!*

*~ Louise O. San Rafael, CA 11/2019*

*Merrily, I would like to order two small size pallets delivered to my home location, please. The Divinia water has really helped clear up my psoriasis, and I have been experimenting with spraying it on my skin. I look forward to buying the 10X when it arrives. Let me know how to proceed. ~ Mike B. Sausalito, CA 8/2019*

*Hi Merrily – Good news! As you know, for many years, I have had a lot of challenges with my body and health, including Fibromyalgia... I have needed a team of practitioners, acupuncturists, bodyworkers, and chiropractors weekly for a long time now, just to keep me functioning and in less pain. I have been drinking Divinia at only one bottle a day because that's all that I can afford.*

*For the first time, my acupuncturist said that my overall chi (Energy) was much higher, and the Adrenals and Kidney and Liver meridians were balancing and strengthening. Nothing else has changed in my life other than drinking Divinia, and I had been drinking only one bottle a day for a week only!*

*Just as awesome was that my regular chiropractor commented that the fascia throughout my musculoskeletal system is More Hydrated, and my upper thoracic bones are moving much better on their own than before. JUST ONE WEEK FROM STARTING THE DIVINIA. That's HUGE for me! Even my massage therapist mentioned that the muscles in my shoulder area are more pliable. And all these improvements are from drinking only one bottle of Divinia a day. I wish to re-subscribe with you for another month of deliveries. My husband has now started on one bottle a day, as well. ~ Kathy P. Venice, CA 11/2091*

*Merrily, I'm 89 years old, and for at least 20 years, I had been diagnosed with Congestive Heart Failure, Fibromyalgia, edema (swelling), and Macular Degeneration. I am not off all medications ... yet. I started drinking 2-2.5 bottles of Divinia a day for nine months now. Over the first three months, my health improved gradually and gently. At 3 months, I noticed my energy, stamina, focus, and creativity had increased 3-fold!*

*For many years, my Cholesterol was at 220. Every member of my family genetically has high cholesterol. Now it is 135! In my whole life, I have never been that low. My Blood Pressure has been high at 155/72 for many years. Now, it is 125/65. The doctor was amazed! My left eye that was particularly riddled with Macular Degeneration ... its vision went from 100/100 to 100/50. I have also become happier and more calm about life's daily challenges. Divinia is extraordinary! ~ Judy W., San Rafael, CA 10/2019*

*Hi Merrily! It was great to receive your email newsletter on Divinia Water and to reconnect with you again after so many years. I am sending my son Charlie to pick up water for the family and me at your Community pick up this week. I am dealing with Osteoporosis and a T12 vertebrae fracture. Living in pain has not been fun. I work from my bed, but it is limited. I have only been able to get up and around a few hours a day, and then I have to lie down, so I found this water just in time. I think my condition impacts the amount of oxygen I am able to take in, so I was happy to read the study that verified that Divinia contains 102% bioavailable oxygen. I am determined to recover and find my way back to vitality again. Thank you so much!*

*Update from Deb: The whole tribe loves the water. I am detoxing, so I find myself drinking 4-5 bottles a day. We all love it so much, especially the kids. They call it 'Magic Water.' I guess it was exactly what we needed, so I need to send my son to pick up another 200 bottles if you have any extra. We are going through it fast and do not want to wait until the next community pickup in a couple of months. Please let me know if that's possible soon. ~ Deborah K. Mill Valley, CA 11/12019*
