

FASDinNC Webinar Series

August 27 – September 17, 2020

September is FASD Awareness Month

Webinar Series ONLY - View this live event from your device

Who Should Participate

Nurses, mental health counselors, psychologists, educators, social workers, other health care professionals and others interested in the care of families affected by FASD.

As part of its commitment to diversity and inclusion, the Northwest AHEC and Wake Forest Baptist Health provide compassionate education and respectful care for all, regardless of sexual orientation, gender identity or expression.

Program Overview and Objectives

This 4-part webinar series will focus on FASD (Fetal Alcohol Spectrum Disorders) across the state of North Carolina.

Upon completion of this program, participants will be able to:

- Describe the scope and impact of the normalization of alcohol use in our society.
- Discuss the prevalence and characteristics of FASD in a southeastern county.
- List FASD identification and management tools.
- Identify elements of the FASD brain as related to the criminal justice system.
- Explore strategies for hope for families living with FASD.
- Recognize appropriate actions which could improve outcomes for families affected by FASD.
- Define practical support systems and strategies for people with FASD.

Registration

There is no per person fee for this event; however, all participants must register prior to the event in order to receive the WebEx link to attend.

For More Information or Assistance

If you have questions about registering for this activity, please contact Gail Pawlik at gpawlik@wakehealth.edu or 336-713-7761.

Provided by:

Northwest Area Health Education Center (AHEC), a program of Wake Forest School of Medicine and a part of the North Carolina AHEC System and The North Carolina Fetal Alcohol Prevention Program supported through The Arc of North Carolina.
