

Dear friends,

As I watched the various ceremonies to commemorate September 11, 2001 and honor the heroes of that day, I heard someone comment that every school age child this year was born after this day that changed the face of America. How sad that they do not remember seeing ALL of Congress UNITED singing "God Bless America" on the steps of the capitol or the surge in patriotism and concern for police forces and firefighters. I do not remember the bombing of Pearl Harbor or the assassination of JFK, but conscientious family members recounted those times for me to help me understand that they are my story too. So it is OUR responsibility to help our young people remember a day when the world came together and pray for the day when we can do that again, without tragedy being the reason. One can always hope!

*Please read John 5:1-9 to prepare for worship. Hope to see you there.
Blessings, Julie*
