6:30-7pm Presentation

7-8:00pm Open House

February 26th, 2025

**Leavenworth Firehall
228 Chumstick Highway**

The Icicle Strategy

Icicle Creek is a major tributary to the Wenatchee River in Chelan County, Washington. Flows from Icicle Creek support a range of uses from domestic water supply, agricultural irrigation, fish habitat, and recreation.

In order to address these needs in our changing climate, the Icicle Work Group (IWG) developed the Icicle Strategy, a collaborative watershed management program. The IWG is made up of a diverse set of members representing local, state and federal agencies, tribes, irrigation and agricultural interests and environmental organizations.

Come and learn about projects being implemented within the Icicle watershed! Including...

- Eightmile Lake Dam Rebuild
- COIC Irrigation Improvements
- Domestic Water Supply
- Leavenworth National Fish Hatchery Improvements
- and more...

For more information...
