Master Myers, Pilsung ATA Martial Arts, Invited to the Review Process for the Title of Senior Master!

28 years of training.

That's about average for a 7th Degree with the title of Senior Master in ATA.

Our organization separates earning rank and title. And now that Master Myers has her 7th Degree, she just received her invitation to the review process for the title of Senior Master!

The invitation is only the beginning - plenty of boxes to check, 9 months of training, and a challenging physical test must be passed first...

But she's up for the challenge!
