## THIRD CENTURY BANCORP RELEASES EARNINGS FOR THE

 FOURTH QUARTER 2022 AND FOR THE YEAR ENDED DECEMBER 31, 2022Franklin, Indiana, OTCPINK: TDCB
Third Century Bancorp ("Company"), the holding company for Mutual Savings Bank ("Bank"), announced it recorded net income of $\$ 536,000$ for the quarter ended December 31, 2022, or $\$ 0.46$ per basic and diluted share, compared to net income of $\$ 634,000$ for the quarter ended December 31, 2021, or $\$ 0.54$ per basic and diluted share. For the year ended December 31, 2022, net income decreased $\$ 226,000$, or $9.65 \%$, to $\$ 2.1$ million, or $\$ 1.83$ per basic share and $\$ 1.82$ per diluted share, as compared to $\$ 2.3$ million, or $\$ 2.00$ per basic share and $\$ 1.99$ per diluted share, for the year ended December 31, 2021.
"I am pleased with the results we are sharing with our shareholders as we close out 2022. This has been a very challenging year for many reasons. The interest rate increases alone created a banking environment not previously experienced by many working in today's industry," commented President and CEO David A. Coffey. " 2022 was a year of taking advantage of opportunities as they presented themselves. We did just that by issuing $\$ 10$ million in subordinated debt at Third Century Bancorp in early 2022. In addition, we added quality loan balances on the Mutual Savings Bank balance sheet and purchased an incredibly attractive new location for our Greenwood Branch." Coffey also added, "Looking ahead, 2023 offers similar economic challenges, but we are looking forward to another year to tell our story which will lead to another successful year for our shareholders."

Coffey also commented, "Recent banking news may have created concerns about banking in general. I feel it is important that we remind our stakeholders that our bank has operated continuously since 1890. We remain well capitalized and well positioned to continue to serve our customers and community." Coffey concluded, "While our customers deposits are covered by the FDIC Insurance, up to applicable limits, we remain Johnson County's only locally based financial institution due to our financial strength, stability, liquidity and ability to navigate turbulent times."

For the quarter ended December 31, 2022, net income decreased $\$ 98,000$, or $15.46 \%$, to $\$ 536,000$ as compared to $\$ 634,000$ for the same period in the prior year. The decrease in net income for the threemonth period ended December 31, 2022 was driven primarily as a result of the $\$ 713,000$, or $81.39 \%$, decrease in non-interest income as compared to the same period in the prior year. The decrease in noninterest income was due to a decrease of $\$ 307,000$, or $100.00 \%$, in net gains on investment sales for the quarter ended December 31, 2022 as compared to the same period in the prior year. The decrease in noninterest income was also the result of a decrease of $\$ 177,000$, or $69.45 \%$, in gains on the sale of one-to-
four-family residential mortgage loans sold to Freddie Mac for the quarter ended December 31, 2022 as compared to the same period in the prior year as a result of the rising interest rate environment. The decrease in net income was partially offset by an increase of $\$ 434,000$, or $24.08 \%$, in net interest income for the quarter ended December 31, 2022 as compared to the same period in the prior year. The increase in net interest income was supported by a $\$ 971,000$, or $49.92 \%$ increase in interest income, which was offset by an increase of $\$ 537,000$, or $375.52 \%$, in interest expense for the quarter ended December 31, 2022 as compared to the same period in the prior year. The decrease in net income was also partially offset by a $\$ 48,000$, or $48.48 \%$, decrease in income tax expense as compared to the same period in the prior year as a result of the decrease in income before income tax expense.

There was no change in the provision for loan losses compared to the same period in 2021. The Company had $\$ 2,000$ in net recoveries during the quarter ended December 31, 2022 compared to $\$ 3,000$ in net charge-offs for the same period in 2021.

For the year ended December 31, 2022, net income decreased $\$ 226,000$, or $9.65 \%$, to $\$ 2.1$ million, as compared to $\$ 2.3$ million, for the year ended December 31, 2021. The decrease in net income for the year ended December 31, 2022 was driven primarily as the result of a decrease in non-interest income of $\$ 1.1$ million, or $46.62 \%$ as compared to the prior year. This decrease was the result of a $\$ 577,000$ or $100.00 \%$, decrease in gains on the sale of investment securities, available-for-sale, as compared to the prior year, as well as a $\$ 677,000$, or $54.73 \%$ decrease in the gain on sale of one-to-four family residential mortgage loans sold to Freddie Mac. As a result of the rising interest rate environment. The decrease in non-interest income was offset by the $\$ 1.0$ million, or $14.07 \%$, increase in net interest income. The increase in interest income was a result of higher market rates, as well as increases in average assets largely due to an increase in the average balance of loans held for investment and investment securities. Increases in interest expense were the result of higher average balances on interest-bearing deposits, FHLB Advances, and Subordinated Notes, along with increases in average rates paid on interest-bearing liabilities primarily as a result of significant increases in market rates following the historically low interest rate environment. In addition, the provision for loan losses decreased $\$ 30,000$, or $33.33 \%$, for the year ended December 31, 2022 as compared to the prior year.

The decrease in net income for the year ended December 31, 2022 was offset by a $\$ 179,000$ or $48.64 \%$ decrease in income tax expense as compared to the prior year. The decrease in income tax expense was due to a decrease in pre-tax income for the year ended December 31, 2022 as compared to the prior year. The decrease in income tax expense was supported by a decrease in the effective income tax rate to $8.20 \%$ for the year ended December 31, 2022 from $13.51 \%$ for the prior year.

Total assets increased $\$ 38.9$ million to $\$ 280.5$ million at December 31, 2022 from $\$ 241.6$ million at December 31, 2021, an increase of $16.12 \%$. The increase was primarily due to a $\$ 27.7$ million, or $19.24 \%$, increase in loans held-for-investment to $\$ 171.6$ million at December 31, 2022, primarily funded by a $\$ 25.5$ million, or $11.88 \%$, increase in total deposits. Total deposits were $\$ 240.1$ million at December 31, 2022, up from $\$ 214.7$ million as of December 31, 2021. Federal Home Loan Bank advances were $\$ 21.8$ million at December 31, 2022 as compared to $\$ 5.0$ million at December 31, 2021. At December 31, 2022, the weighted average rate of all Federal Home Loan Bank advances was $4.29 \%$ compared to $1.45 \%$ at December 31, 2021, and the weighted average maturity was 0.1 years at December 31, 2022 compared to 4.3 years at December 31, 2021. Investment securities, available-for-sale increased slightly to $\$ 85.6$ million at December 31, 2022 from $\$ 84.6$ million at December 31, 2021, an increase of $1.07 \%$. Investment
securities, held-to-maturity increased to $\$ 3.0$ million at December 31, 2022 from $\$ 0$ at December 31, 2021.

The allowance for loan losses increased by $\$ 60,000$, or $3.19 \%$, to $\$ 1.9$ million at December 31, 2022 from the previous year end. The increase was primarily due to the provision for loan losses of $\$ 60,000$ during the year ended December 31, 2022. The allowance for loan losses totaled $1.13 \%$ of total loans as of December 31, 2022 as compared to $1.30 \%$ of total loans as of December 31, 2021. Nonperforming loans totaled $\$ 52,000$ or $0.03 \%$, of total loans as of December 31, 2022 as compared to $\$ 237,000$ or $0.16 \%$, of total loans as of December 31, 2021.

Stockholders' equity was $\$ 8.0$ million at December 31, 2022, down from $\$ 21.5$ million at December 31, 2021. Stockholders' equity decreased by $\$ 13.5$ million during the year ended December 31, 2022 as a result of an increase in net unrealized loss of $\$ 14.9$ million on available-for-sale securities due to the significant increase in market interest rates, partially offset by net income of $\$ 2.1$ million. The decrease in stockholders' equity was also impacted by repurchased stock of $\$ 216,000$, dividends of $\$ 448,000$ and stock awards of $\$ 28,000$. Equity as a percentage of assets decreased to $2.86 \%$ at December 31, 2022 compared to $8.91 \%$ at December 31, 2021.

During the year ended December 31, 2022, the Company repurchased 12,200 shares of common stock at an average cost of $\$ 15.52$ per share pursuant to the Company's stock repurchase program. At December 31, 2022, 25,578 shares of common stock remain available for future repurchase by the Company through the stock repurchase program.
