

Indiana State Medical Association Selects Managed Services Partners as Its Trusted IT and Cybersecurity Provider

Managed Services Partners is proud to announce that the Indiana State Medical Association (ISMA) has selected our team as its strategic technology partner to support and enhance the organization's IT infrastructure.

As part of this partnership, Managed Services Partners will provide comprehensive managed IT services, including:

Full management and support
of ISMA's internal IT environment

Deployment and ongoing management
of Arctic Wolf cybersecurity services to strengthen the organization's security posture

Proactive network management and 24/7 monitoring
to ensure optimal performance, reliability, and uptime

Design, installation, and management
of a new state-of-the-art VoIP telephone system to enhance communications and improve operational efficiency

This partnership reflects ISMA's commitment to investing in secure, reliable, and modern technology that supports its mission of serving Indiana physicians and improving healthcare throughout the state.

“

At Managed Services Partners, we are honored to be entrusted with supporting the technology needs of one of Indiana's most respected healthcare organizations. We look forward to providing the expertise, security, and responsive service that enables the Indiana State Medical Association to focus on what matters most—serving its members.”

— Tom Martens, Director of Insurance, ISMA
