

JOHNSON COUNTY
ADVANCED MANUFACTURING
PROGRAM

INFORMATION OPEN HOUSE

for Students and Families

What Is JC-AMP?

Johnson County Advanced Manufacturing Program (JC-AMP) is a collaboration among industry, Ivy Tech Community College, and Center Grove, Greenwood and Whiteland high schools. This partnership significantly reduces the cost of college for high school students and their families and gives students an opportunity to earn a college degree while in high school, creating pathways to high-demand careers after graduation.

About the Open House

- Discover how JC-AMP prepares you for a career with hands-on training
- Explore academic programs and career pathways
- Meet faculty and industry employers
- Learn what college credentials are offered
- Find out about program costs
