Leaders in Energy

Leaders in Energy Four Generations Awards & Holiday Celebration

Leaders in Energy will conduct its highly successful Four Generations of Leadership in Clean Energy & Sustainable Solutions Awards and Holiday Celebration on Friday, November 30th, from 6-8 pm. See our list of past Four Gen Hall of Fame awardees [here](#). Recap articles of our past events are available on our [Blog](#) and [Event Archives](#).

We will recognize clean energy and sustainability leaders from the Four Generations in the workplace, e.g., Millennial/Gen Z, Gen X, Baby Boomer, and World War II. Our theme this year is ““Becoming a Leader by Empowering Ourselves and Others to Create a Better and Greener World.” These are people who empower themselves and step up to take responsibility, to make the world a better and greener place for humanity and for all the natural world. In our homes, in our neighborhoods and communities, in our workplaces, cities, states, and countries – we need leaders on every front and at every level. From solo change leaders, to leaders of others, we are honoring individuals who have taken the initiative to make a difference!

Four awards are given – one for each generation:

**Millennial/Gen Z,
Generation X,
Baby Boomer and
World War II.**

See more on the event program and location [here](#).
