The call will be recorded so people who can't make the call can watch later.

## **Creating A Better World - *visioning and personal empowerment***

Event date 16 May '20 14:00 - 15:30

[https://us02web.zoom.us/meeting/register/tZYvcumvqDoqH9XG9JmYy\\_JFbL-yACzEyi79](https://us02web.zoom.us/meeting/register/tZYvcumvqDoqH9XG9JmYy_JFbL-yACzEyi79)

[www.climateyogi.org/creating-a-better-world/](http://www.climateyogi.org/creating-a-better-world/)

We all have a desire for the world, and for how we want to be, but the reality of the world is often at odds with our vision, and pulls and pushes us into choices that may be at odds with how we truly want to be.

Knowing that the reality of the world, good and bad, all stems from choices people have made, it's clear that the way to a better world must be paved with different, better choices.

In this session we'll explore together our vision for a better future, and how we can, through our choices and actions, live in the way we want to be in the world, while we work to create the world we want to live in and leave for future generations.

The covid-19 pandemic has changed our lives and communities in many ways, and the upsetting of longstanding patterns presents opportunity for transformation for the better.

When is the world going to change? Right now!

## **Saving the Planet One Forkful at a Time will feature**

Event date 17 May '20 13:00 - 14:00

Zoom link will be sent to registrants

Part IV of the Luncheon Series (now virtual)

Juanita Cabrera Lopez and others from the Mayan League who will share experiences of how the multi-national industrial food production system exploits natural resources and despoils indigenous lands. This causes disasters for the peoples and communities engendering environmental and economic immigration. Ms. Lopez will talk about how immigrants and especially undocumented communities are then often exploited in US industrial food production, and are especially hard hit in these times of COVID 19 crisis.

Pre-COVID-19, the UUCF Climate Action Group offered a delicious, plant-based luncheon, but since we're not able to gather in person, we suggest checking out this link <https://www.artisticvegan.com/burgerswrapssandwiches.html#/> which has scrumptious sounding Mayan vegan recipes. We encourage all to join us while savoring your homemade plant-based feasts!
