

## **Treatment Records and Disclosure**

- **Required for all facilities** (including shelter and rescue based foster homes) housing pets that receive immunizations, medications, and other types of veterinary treatment while in the care of the facility or foster home.
- **Treatment records are required for all pets (except fish and invertebrates) that receive any medications or immunizations used to treat or prevent illness or used in the treatment of injuries.**
- **The treatment record must include the following:**
  1. Pet animal identification
  2. Reason for treatment, illness, or veterinary diagnosis
  3. Name of the product, medication, or immunization
  4. Dosage or amount of the product or medication administered
  5. Record of time and date when medication or immunization was administered
- **Treatment Disclosure:** If the pet animal is transferred, the recipient, (i.e. adopter, purchaser), must sign a statement stating that all treatments that the pet receives while at the facility were disclosed to them. This disclosure must be provided at the time of transfer. The facility is required to keep a copy of this signed disclosure by every recipient with the facility records.

## **PACFA Rules and Regulations Pertaining to Treatment Records and Disclosure**

### **8 CCR 1202-15 Part 19.9 Written disclosure**

#### **8 CCR 1202-15 Part 19.9.1**

Written disclosure of all treatments received while in the care of the pet animal facility involving immunizations, medications, and any other veterinary treatments, administered prior to transfer, must be provided at the time of transfer to the transferee for all pet animals excluding fish, feeders, and invertebrates. A record detailing the product used, the dosage, and the date(s) administered must be included. Proof of disclosure, signed by the recipient of the animal, must be kept with facility records.

#### **8 CCR 1202-15 Part 19.9.4**

Treatment records must be kept on all pet animals (except fish and invertebrates) that receive any medications or immunizations used in the treatment or prevention of illness, or the treatment of injury, while in the care of the pet animal facility. These records must include the identification of the pet animal receiving medical treatment, signs of illness, reason for medical treatment, or veterinary diagnosis, the name of the medication or immunization used, the amount of medication used, and the time and date on which the medication or immunization was administered.
